

Tel Aviv March '09 Meeting
IEEE GRS Technical Committee
& International Spaceborne Imaging Spectroscopy Working
Group (ISIS WG)

Goals for the WG are to foster increased synergy and interoperability among future international imaging spectroscopy (hyperspectral) missions, their associated ground-segments, and to maximise uptake by the earth observation user community.

Location: EARSEL, University of Tel Aviv, Israel, March 19, 2009

July 11, 2008

Time	Topic	
SESSION 1: Opening and Update on Missions		
9:00	Welcome, Introductions	A. Held (CSIRO)
9:15 – 12:30	Status of Current and Upcoming Space-based Imaging Spectroscopy Missions (Up to ~20 min. each)	Germany (EnMAP) Italy (PRISMA) Japan USA (Hyperion, HypSPIRI) India ESA (Chris-Proba) China South Africa
SESSION 2: Special Discussion Topics: Access to data archives, data-policy, Cal/Val, Instrument Design		
12:30	Optional Discussion Points: IEEE GRSS, new website, etc.	All
13:00	Actions, Next Meeting & Closing Remarks
